PACKING FOR LONG DISTANCE

To far-off points many customers have the soil removed from the roots of Roses and then wrapped in damp moss, thereby saving express charges. Customers who desire their Roses packed in this way will so state when they order. We will not be responsible for loss or damage in transit when so packed. We make no charge for packing.

UNKNOWN CORRESPONDENTS

Orders from unknown correspondents must be accompanied by the cash or satisfactory bank or business reference. Remember, it takes time to write your reference and get their reply. If ordered sent C. O. D. one-third the value of the stock called for must be remitted with the order. We make no deviation from this rule, as at the very low rate offered we cannot afford to run any risk. This rule will be strictly adhered to.

COMPLAINTS

No complaints will be entertained unless made immediately on receipt of goods.

REMITTANCE

Should be made either in the form of Money Order, Bank Draft, Express Order or Registered Letter. Remittances in any other way are entirely at the sender's risk. Personal checks not accepted from unknown correspondents.

SHIPPING FACILITIES

Having the rival express companies—Adams, American, Pacific, United States and Wells Fargo—these companies charge one through tariff rate over their own lines and have working arrangements with the National, Southern, Great Northern and Northern Pacific Express Companies, thus insuring you the lowest possible one through rate without the usual custom of charging two or more local rates where goods are handled by two or more express companies; thus we can reach almost any point in the United States by express at one rate, insuring our customers the lowest express charges.

PLANTS BY EXPRESS

All goods are sent by express unless otherwise ordered.

The Good & Reese Company's Roses

Are justly celebrated from one end of this continent to the other, even extending to all foreign countries. There is a sense of satisfaction when one can truthfully say, "I have the finest business in Roses of any one in the world." The great question is, How have you done it? The answer is by supplying Roses that grow and bloom, that are true to name and at as low a cost as good stock true to name can be grown for. Some Roses are dear at any price, all mixed up, and you don't know what you've got. Not so with G. & R. Roses. Every plant is true. We have system to our business and our Rose experts know the how—no guesswork about it. Our Rose trade uses each year some five million plants. Easy to say, but not so easy to grasp. We know with our customers that no Roses are produced that will equal G. & R. quality stock. We thank one and all for past favors. Our aim will be to please you even better in the future than in the past.

Rose Novelties for 1911

AND SOME OF THE NEWER ROSES OF RECENT INTRODUCTION. ALL PRICES ARE FROM TWO AND ONE-FOURTH-INCH POTS. IF YOU DESIRE PRICES ON FOUR-INCH POT PLANTS OF THE NEW ROSES WRITE US.

The mistake made by many growers of Roses is their failing to test the new Roses. This is obvious from the fact that there is no other department of floriculture in which there is more effort being put forward both in time and money, than there is along the line of the improvement of the Rose. And this is an honest effort, not such an one as many affirm is being carried on, the simply naming of a Rose and selling it at a high price without regard to its merits. Suppose the case that all Rose growers would look at it from that standpoint and refuse to buy new Roses because the price asked seemed high. This is in part what we would have missed. In the H. P. class we would be content with Paul Neyron, John Hopper and General Jacqueminot and have lacked the enjoyment of such grand late arrivals as Conrad Ferdinand Meyer, and of Frau Karl Druschki and J. B. Clark. In the Hybrid Tea class to have missed the great beauty of Etoile De France and of Chateau Des Clos Vougeat and Madame Segond Weber would have really been a Rose tragedy. And then in the Tea class, who would dare say that he is not a better man to have seen the charm of a Friedrichsruh; to have felt the inspiration of a Wm. R. Smith, and to have received the benediction from a Helen Good. These are only a few of the really good things recently introduced, and by all means, both for your own real pleasure and for the replenishment of your purse, plant new Roses. Some may perchance disappoint you, as all may not do well in a given location, but if you get one variety out of ten that will thrive with you, you should feel well repaid, as your outlay with a modest purchase for a trial or test purpose will not embarrass you financially.

We test all of the new Roses, and the list here offered are the pick of our importations, as well as of the American grown varieties.

Mrs. Aaron Ward. For description see page 4.

ALICE ROOSEVELT (H. T.)—Beautiful opaque salmon-pink, the outside of the petals flushed with rose; very large and full, of vigorous growth; flowers produced freely; very handsome. 60 cents per dozen; \$4.00 per hundred.

ANDRE GAMON (H. T.)—A very vigorous grower of erect, branching habit; fine bronzy foliage, with long finely shaped buds; the flowers are large, full and globular, carried well above the foliage upon rigid and strong stems. Color deep rose and carmine. Edges of petals carmine-lake. As a garden Rose this will become popular on account of its distinct soft color and its remarkably free flowering qualities and hardiness. \$1.50 per dozen; \$10.00 per hundred.

AVOCA (H. T.)—Crimson-scarlet, buds very long and pointed, flowers large and sweetly perfumed. Awarded gold medal by the N. R. S. 75 cents per dozen; \$5.00 per hundred.

CHATEAU DES CLOS VOUGEAT (H. T.)—You have all been looking for the black Rose and here it is. The most wonderful color and texture ever seen in a Rose; looks as if cut out of heavy velvet with a color shading from deepest velvety maroon-red to blackish-crimson. We are sure it will become one of the most popular of garden Roses, quite in a class by itself, blooming continuously in crops closely following one another. It is of fine shape, good size and the richest colored of all Roses, being 50 per cent. darker than Prince Camille de Rohan and Jubilee; quite fragrant. With us the foliage of this Rose is absolutely resistant to black spot and mildew; in a class by itself for this reason alone. Keep your eye on this Rose, as it is a wonder; named after a vintage of famous old French wine. 25 cents each; \$2.00 per dozen; \$15.00 per hundred.

COLONEL LECLERC (H. T.)—An extremely vigorous grower of erect, finely branching and profuse habit, fine deep green foliage, buds borne singly, flowers large and finely formed. Color a lovely cherry-red. This variety will prove a very valuable garden Rose as it adds to our list of free flowering red Roses. \$1.50 per dozen.

COLONEL R. S. WILLIAMSON (H. T.)—Satiny white with deep blush center; blooms very large, full, of perfect form, with high pointed center; very free and of great substance. A first rate Rose for any purpose. 60 cents per dozen; \$4.00 per hundred.

COUNTESS OF GOSFORD (H. T.)—Salmon, pink and rose, shading into one another; base of petals suffused saffron-yellow. A beautiful Irish Rose that won the N. R. S. gold medal. 75 cents per dozen; \$4.50 per hundred.

DUCHESS OF WELLINGTON (H. T.)—In the young stage the flowers are an intense saffron-yellow, stained with rich crimson which, as the flower develops, becomes deep coppery-yellow, a shade of color hitherto unknown among Roses. The general style of the flower is like Killarney, a Rose that is universally admired. \$1.50 per dozen; \$10.00 per hundred.

ELIZABETH BARNES (H. T.)—Satiny-rose with fawn center, outside of petals rosy-red suffused with yellow and copper; large, full, perfectly formed and delightfully fragrant. A superb Rose. 75 cents per dozen; \$5.00 per hundred.

FLORENCE EDITH COULTHWAIT (H. T.)—An exquisitely beautiful bedding variety that can be classed as a substantial "fancy;" the blooms are large and full, of perfectly imbricated form, the edges of the petals beautifully ruffled. Color deep cream stippled with bright rose on the inside petals and reflected on the back, thus creating an indescribable delicate orange and peach glow; quite distinct. \$1.50 per dozen; \$10.00 per hundred.

FRIEDRICHSRUH (Tea)—Color deep blood red; large, full, well formed, flowering freely and continuously; excellent habit of growth. Awarded gold medal at Dusseldorf. A splendid Rose. 75 cents per dozen; \$5.00 per hundred.

F. R. PATZER (H. T.)—A most beautiful and distinct Rose of very free flowering character. The blooms are produced with great freedom on stiff stems, and are of large size and substance. The color is creamy-buff, back of petals delicate warm pink; as the petals reflex the color becomes light orange-pink, forming a most charming combination. Valuable for garden culture. \$1.50 per dozen; \$10.00 per hundred.

GEORGE C. WAUD (H. T.)—Color glowing orange-vermillion; flowers large and full with high pointed center and strong tea fragrance; growth very strong, very free bloomer. Won the gold medal of the N. R. S. A remarkable Rose. \$1.50 per dozen; \$10.00 per hundred.

HARRY KIRK (Tea)—Deep sulphur-yellow, passing to a lighter shade at edge of petals; large, full, perfect form; buds long and elegant. A splendid grower of fine habit. Awarded gold medal at N. R. S. \$1.50 per dozen; 10.00 per hundred.

HECTOR MACKENZIE (H. T.)—Dark pink changing to silvery-crimson; flowers very large and full, of perfect globular form, both free and fragrant. Scored very high in the recent Parisian contest; one of the most valuable bedders. Strong, vigorous growth. To be recommended. \$1.50 per dozen; \$10.00 per hundred.

INDIANA (H. T.)—A grand garden Rose, very free bloomer, making it a splendid bedder; fine form. Color warm watermelon red. We believe this Rose has a future. 75 cents per dozen; \$5.00 per hundred.

LADY HELEN VINCENT (H. T.)—Shell-pink, reflex of petals blush, base of petals veined and suffused peach with yellow zone; large, full and of exquisite form; buds long and pointed; very fragrant, superb. Gold medal N. R. S. \$1.50 per dozen; \$10.00 per hundred.

LADY URSULA (H. T.)—Color a most beautiful shade of flesh-pink, of great substance and good form; petals large, circular and delicately perfumed. A grand grower, producing its round, full blooms in wonderful profusion. Keep your eye on this lady, because she's going to crowd somebody out of the line. 75 cents per dozen; \$5.00 per hundred.

LA GALISSIERE (H. T.)—Bright, deep pink bud, very large and full; a rank grower, extremely free bloomer; strongly recommended as a first rate bedder. The bloom is enormous in size, very full and of magnificent form. We recommend this Rose highly. 75 cents per dozen; \$5.00 per hundred.

MADAME BORY D'ARNEZ (H. T.)—Outer petals coral-red, center clear rose; large, full, perfectly formed, very distinct and beautiful. 75 cents per dozen.

MADAME EDWARD VICARS (Tea)—Bright carmine shaded pale rose, reverse of petals white, tinted reddish carmine; large, full, pretty form, opening well. 75 cents per dozen.

MADAME P. EULER (H. T.)—Vermilion silvery-pink; very large, very full and possessing great lasting properties, perfect form; fragrant. Awarded first prize and gold medal at Clermont. 75 cents per dozen; \$5.00 per hundred.

MOLLY SHARMAN CRAWFORD (Tea)—We predict a great future for this grand snow-white Rose. It is one of the freest branching and fastest growing in the whole Rose family. The blooms are of the grandest size, of elegant form and build. The color is very pure, texture durable; it blooms freely and continuously. In all probability it will take first place as a white bedding and nurseryman's Rose. 75 cents per dozen; \$5.00 per hundred.

MRS. AARON WARD (H. T.)—One of the most delightful Roses of recent years in a color that catches the eye at once—a deep golden-orange color shading out to lemon or creamy-yellow at the edge of the petals. Some describe the Rose as an Indian yellow. The buds are cupped and very deep, showing the glowing heart to the best advantage. Flowers very large, very full, of exquisitely refined form. One of the most beautiful Roses in existence. Forces well. \$3.50 per dozen; \$25.00 per hundred.

Madame Second Weber.

MADAME SECOND WEBER (H. T.)—One of the grandest novelties of recent years; everybody is talking about it and the more one knows of this wonderful Rose the more they will talk about it, and what is of real value, every bit of talk about Mme. Second Weber is in praise of her. Rosy-salmon or flesh-pink in color, of the general type and color of "My Maryland." The bud is long and pointed, opening into enormous blooms which deepen its color until fully expanded, when it is as impressive as an "American Beauty." The texture of the Rose is very thick and heavy and the form of the petals peculiarly beautiful. A great grand garden Rose awarded two gold medals. 75 cents per dozen; \$5.00 per hundred.

MAYFLOWER (Tea)—This charming Rose is really an improved Devonensis. The buds are long, slender and pointed which open into large, elegantly finished flowers of creamy-white, with laced edge of lavender-pink about each petal; every tone is clear and bright. The fine habit, good constitution and clear color stamp this as a Rose of great value. \$1.50 per dozen; \$10.00 per hundred.

MAY MILLER (H. T.)—A strong growing, free flowering Rose; the bud is long and pointed and opens into flower of unusual beauty. The back of the petals are coppery-yellow, suffused with bright pink; the upper surface peach and apricot with fawn shade. A grand fancy colored Rose. \$1.50 per dozen; \$10.00 per hundred.

MRS. ARTHUR ROBERT WADDELL (H. T.)—A strong, rampant grower with foliage that is ornamental in itself; buds long and pointed of the deepest apricot color. Open flowers large and semi-double of great elegance; a wonderful keeper. A constant bloomer and one of the showiest Roses extant; delicate apricot fragrance. This Rose will become exceedingly popular for decorative purposes in the garden and will be planted in great numbers once it is known. Claimed that it forces well. 75 cents per dozen; \$5.00 per hundred.

Mrs. David Jardine.

MRS. DAVID JARDINE (H. T.)—Delightful shade of bright silvery-pink, shading in the outer petals to salmon-pink. The blooms are large, of perfect form, and produce on every shoot; highly perfumed. A grand Rose and unquestionably one of the finest all around general purpose Roses. Has come to stay. Forces. 60 cents per dozen; \$4.00 per hundred.

MRS. HAROLD BROCKLEBANK (H. T.)—Creamy-white, center buff, outer petals often tinted salmon-rose, buds with a flush of salmon-pink. The blooms which are freely produced are large, full and of perfect form and very fragrant. A superb Rose for any purpose. 60 cents per dozen; \$4.00 per hundred.

MRS. POTTER PALMER (H. T.)—A grand new Rose of a beautiful shade of brilliant bright pink. It is a fine garden Rose as it blooms freely. Forces. 60 cents per dozen; \$4.00 per 100.

MRS. THEODORE ROOSEVELT (H. T.)—Creamy-white with rose center; bud long and pointed; flowers very large, full and of splendid form. Its freedom of bloom is most remarkable, beginning on very small plants and continuing without interruption. A grand garden Rose. Has made a fine record in Europe as well as in America. 75 cents per dozen; \$5.00 per hundred.

MRS. WAKEFIELD CHRISTIE MILLER (H. T.)—Soft pearly-blush, shaded salmon; outside of petals clear vermilion-rose; a marvelous and delightful scheme of coloring; blooms of enormous size, quite full, and retaining its coloring in the hottest sun. \$3.00 per dozen.

MY MARYLAND (H. T.)—An American Rose that has jumped into popular favor at once, sweeping the decks clean of both Europe and America. Color glowing, intense pink; large, full and of fine form. The freest Rose in growth and bloom that we know. 75 cents per dozen; \$5.00 per hundred.

OLIVIA (H. T.)—The ideal bedding red Rose; was always just a little ways ahead—never quite reached. Such varieties as Meteor, Gruss an Teplitz, Helen Gould, General McArthur, Etoile de France, each lacked something to make them ideal. Rhea Reid came nearer the mark, but now comes Olivia, and if it acts with others as it has the past season, with us, it will certainly crowd the bunch, coming under the wire first. The color is a deep rosy-red, resembling Helen Gould in form and color. 60 cents per dozen; \$4.00 per hundred.

PAULA (Tea)—A vigorous free flowering Rose. Habit erect, buds well shaped. Color sulphur-yellow with deeper center, deliciously fragrant. Looks like a much better Etoile de Lyon. \$1.50 per dozen.

PIUS X (H. T.)—Flowers large and cupped in form. Creamy-white, passing to tender rose. Center deeper, very free and fragrant. A Rose of grand form and size. A seedling of Kaiserin Augusta Victoria. 60 cents per dozen; \$4.50 per hundred.

PRESIDENT TAFT (H. T.)—There have been two Roses sent out under this name, a red variety from Europe without merit, and the one we here describe. This Rose was raised in Cincinnati, the home of President Taft, and let us say right here while some of you may not admire the president himself, you will one and all admire the Rose given his name. It is without question the most remarkable of all pink Roses. It has a shining, intense, deep pink color possessed by no other Rose. It is a fine grower, free bloomer, good size and form, fragrant, and in a class by itself as to color. Our Mr. Frank Good, who is probably familiar with more Roses than any man in America, says: "Talk all you want to about the Rose Pres. Taft, and then you will not say enough." 75 cents per dozen; \$5.00 per hundred.

QUEEN BEATRICE (H. T.)—One of the very finest of bright pink Roses, very much the shade of Mrs. Robert Garrett. Buds and flowers are fine, very free in bloom and altogether a fine Rose. 60 cents per dozen; \$4.00 per hundred.

RHEINLANDS EYRE (H. T.)—Clear brilliant satiny rose, large and full, lasting and of perfect form. A variety of great excellence for any purpose. 75 cents per dozen; \$5.00 per hundred.

RELIANCE (H. T.)—This variety is a very strong grower which throws up heavy canes three to four feet long, topped with very large flowers of a lovely glowing pink with creamy-white base to the petals; the outer petals are extremely large and shell shaped, and give the half open flower a great spread. Foliage large, leathery and beautiful. A fine addition to the fancy bedding class. \$1.50 per dozen; \$10.00 per hundred.

ROSE GUBERT (Tea)—Color canary-yellow, deepening at the center; bud long, producing a large flower. Extremely free in growth and bloom. 60 cents per dozen; \$4.00 per hundred.

ROSEMARY (H. T.)—A beautiful Rose of shining silvery-pink, recommended for bedding; very large and very double. A sturdy grower with stiff stems and large foliage. Flowers freely produced. Up to date this is the best garden Rose that Mr. E. G. Hill has introduced. 60 cents per dozen; \$4.00 per hundred.

President Taft.

SENATEUR MASCURAUD (H. T.)—A fine vigorous grower of erect branching habit, with light green foliage; buds borne singly; flowers large, full and globular. Color amber-yellow, with golden center, when fully expanded a light sulphur-yellow. Extremely free flowering and a grand garden Rose; very promising. \$1.50 per dozen.

WHITE KILLARNEY (H. T.)—This is the greatest forcing Rose of any color or class. Bunches of it during the winter give the appearance of a bank of snow. It is pure white in color, long in bud, of fine form; in fact, it is the one Rose par excellence. It is also a great garden Rose, having more petals than its parent Killarney. A great acquisition and a really wonderful Rose. 75 cents per dozen; \$6.00 per hundred.

WILLIAM SHEAN (H. T.)—A fine grower, throwing up long, stiff canes, crowned with large pointed flowers of purest Killarney pink, full, free and a perpetual bloomer. Immense size, perfect form and substance. Altogether a glorious Rose. 60 cents per dozen; \$4.00 per hundred.

YVONNE VACHEROT (H. T.)—Buds long and pointed on long stiff stems. Color porcelain-white suffused pink. Free flowering and desirable. 60 cents per dozen; \$4.00 per hundred.

**Why Our Rose Trade Is By
Far The Largest In
The World
Because Our
ROSES
Grow and Bloom**

White Killarney.

Under our method of propagation—which is a natural one—growing during the growing season and resting during the non-growing season, we produce a Rose that can have no superior. This is evidenced by our largely increasing trade. Once a customer always one. Sometimes a customer of ours will be led off by cheaper prices, but they invariably after the trial come back to us, our prices being as low as first-class Roses true to name and carefully packed can be produced and sold for. Cheaper prices than we quote always mean cheaper Roses. We invite correspondence on large orders. Mail us your list of needs, giving the varieties and quantities of each you will require and we will give you the very best prices at which first-class stock can be sold.

BLUMENSCHMIDT (Tea)—Pure citron-yellow; outer petals edged tender rose. A sport from Mademoiselle Franzisca Kruger, which it resembles in form. Winner of three first premiums. Should be tried by all. 50 cents per dozen; \$3.50 per hundred.

We believe with him that it has no superior. The flowers are very large and borne on good, long, stiff stems; color a lovely shade of clear, red-crimson velvet; very fragrant and keeps

well. In England, where it has been tried extensively during the past season, it has caused quite a sensation. Our opinion is that it will become as much of a favorite as La France. Keep your eye on this variety, as it is a stayer and altogether a grand variety. It is a good grower, a free bloomer, fine rich color, deliciously fragrant. What more can be said of a Rose? 50 cents per dozen; \$3.50 per 100.

FLORENCE PEMBERTON (H. T.)—One of the grandest of all new Roses for outdoor culture. It is a splendid grower, the bloom is perfection itself in way of shape and size, the color a lively pink, edged whiter. A refined flower that is both beautiful and fragrant and will have many admirers. 60 cents per dozen; \$4.00 per hundred.

FREIHERR VON MARSCHALL (Tea)—As an outdoor Rose it has no superior. The flowers are large, beautifully shaped, double and full, borne in wonderful profusion all through the growing season. It is bright red, one of the brightest, if not the very best red Tea Rose in existence, fine long, well-shaped buds. 50 cents per dozen; \$3.50 per hundred.

GENERAL McARTHUR (H. T.)—A new Rose that is already a fixture in many gardens. Color brilliant scarlet, a very bright-colored Rose of good size and double; very free blooming and fragrant. Many claim for this that it will rank with Helen Gould as a red Rose. It has certainly shown up well with us the past two seasons. We advise trying this Rose. 60 cents per dozen; \$4.00 per 100.

GRUSS AN TEPLITZ (Hy. China) or the Greeting of Teplitz—As a bedding, border or hedge Rose this variety has no superior. It is semi-double of the brightest hue, scarcely crimson. When in bloom, which is all of the time during the growing season, it presents the appearance of a sheet of dazzling red. Superb. 50 cents per dozen; \$3.50 per hundred.

GROSS HERZOGIN ALEXANDRA (H. T.)—A new yellow Rose for the garden of great promise. We have had many words of praise for this Rose from a wide range of latitude. Try it. 60 cents per dozen; \$4.00 per hundred.

GRUSS AN SANGERHAUSEN (H. T.)—Flowers large, full and elegantly formed; color reddish-scarlet, center deeper; buds long and pointed; very free and continuous; foliage and habit excellent. This looks like the red Rose for the million. 60 cents per dozen; \$4.00 per hundred.

HELEN GOOD (Tea)—This is a true Cochet Rose and after three years' trial in the garden we pronounce it as good if not better than any Rose for the garden ever sent out. We bought the entire stock of this Rose from the introducers, paying them \$1,000 for two plants, this being by far the highest recorded price ever paid for any Rose. The color is a delicate yellow, suffused with pink, each petal edged deeper, very chaste and beautiful. The color, with its immense size and exquisite form, makes it without question the greatest Tea Rose ever introduced and we are proud to have brought it out. Be sure and try it. A genuine Cochet. We are receiving letters every week praising this Rose as being a wonder. It grows; it blooms, and there is nothing finer. 50 cents per dozen; \$3.50 per hundred.

INSTITUTEUR SIRDAY (H. T.)—Deep golden-yellow. A bush in full bloom resembles a huge yellow bouquet; very large and full, of fine form. A truly lovely and most charming Rose. A Rose sure to be appreciated. 50 cents per dozen; \$3.50 per hundred.

KAISERIN AUGUSTA VICTORIA (H. T.)—This is probably the best all around pure white Rose ever sent out; nothing finer. 50 cents per dozen; \$3.50 per hundred.

KILLARNEY (H. T.)—Siebrecht, the great Fifth avenue (New York) florist, claims that this is the finest pink Rose ever introduced. He used it almost exclusively during the past year for the great society decorations of New York. In coloring it is especially beautiful, being an exquisite shade of deep shell-pink, while the flowers are enormous in size, the petals being frequently two and one-half inches deep. 60 cents per dozen; \$4.00 per hundred.

"Not How Cheap—But How Good" THE G. & R. QUALITY ROSES

Don't get your headlight behind—light up ahead and keep going. If you hold a penny close to your eye, of course you can't see a dollar behind it. Save a penny and lose a dollar? That's what some buyers do who insist upon the cheapest they can get in Roses. It's false economy. It is the net profit that counts, and not so much the first cost; therefore buy the best you can and insist upon getting it. Did you ever try our first propagating of Roses? A great big difference over the second propagation. When you plant them in the field you can use your cultivator at once without fearing to cover them up. Quite a contrast to the measly little things that you can buy for a song and can't hardly see them in the row after planting, and what's worse don't know what varieties you have. Probably you could pick out a rainbow collection from every sort planted. Write for prices on Roses—Good Roses, the kind that please.

An enthusiastic admirer from the state of Oregon describes it as a Rose reminding him of a beautiful girl wearing a light colored Gainsborough hat, ornamented with white ostrich plumes, hence the suggestion of its name. NEW HARDY CLIMBING ROSES

ALBERIC BARBIER—Creamy-white with canary-yellow center; buds of orange-yellow. Semi-double flowers in immense clusters. It is a fine variety. 50 cents per dozen; \$3.50 per hundred.

AMERICAN PILLAR—A new single flowering Rose with blooms three to five inches across, borne in immense clusters. Color lovely apple blossom pink with bright golden stamens. A great Rose to grow in pots for Easter. 75 cents per dozen; \$5.50 per hundred.

BORDEAUX (Rambler)—This is a new Rambler that has won gold medals at Nancy and Mannheim. Produces enormous trusses of wine-red flowers which last a very long time. It also comes into flower earlier than Crimson Rambler. Quite hardy. 75 cents per dozen; \$5.50 per hundred.

DR. VAN VLEET—A grand new climbing Rose that has flowers in immense clusters, resembling in color Souv. de Pres. Carnot. A wonderfully attractive variety. \$1.50 per dozen.

THE EVER-BLOOMING CRIMSON RAMBLER, FLOWER OF FAIRFIELD—The only drawback to Crimson Rambler is the fact that it blooms but once a year. For many years it has been the aim of every Rose grower to raise a Crimson Rambler that would be ever-blooming, and now we are able to offer such a Rose. This new variety is a sport from the famous Crimson Rambler, same climbing habit, same hardiness, same immense trusses of bloom, similar in color but more brilliant and lasting than the old favorite. It possesses a further advantage over any other Rambler in the fact that it flowers profusely on the young wood in its first year. The new Crimson Rambler "Flower of Fairfield" is of vigorous growth, and when in bloom supersedes anything else by the wonderful display of its immense clusters of blossoms. It starts blooming in early spring and continues to flower till late in the autumn, thus it is rightly termed perpetual blooming. The above is the introducer's description under glass. With us in pots it has the ear marks of making good. It is unquestionably a marked improvement and a great advance over Crimson Rambler. \$1.50 per dozen; \$10.00 per hundred.

LYON RAMBLER—Many claim that this Rose will make Dorothy Perkins step some to keep up with the procession of Pink Ramblers. It has a very vigorous climbing habit, flowers abundantly and lasting a long time. The trusses, which are immense, contain from thirty to fifty flowers. Color bright vivid pink, shaded carmine, a wonderfully attractive color. Received the medal at Lyons show. 75 cents per dozen; \$5.50 per hundred.

TAUSENDSCHON, or THOUSAND BEAUTIES—A climbing Rose that comes to us from Germany. The flowers upon first opening are the most delicate shade of pink ever seen in a Rose, might be described as a white delicately flushed pink changing to rosy-carmine. It gets its name from its many flowers and the variation in coloring; beautiful; will become as famous as Crimson Rambler or Dorothy Perkins. We wrote the above a year ago, and now we can add that this Rose is sweeping the country like a prairie fire. You can word paint all you want to and then you will have left something unsaid. Simply a wonder. 50 cents per dozen; \$3.50 per hundred.

THE BLUE RAMBLER ROSE—The most wonderful Rose of the century for the reason that it marks a decided advance in the color of the Rose hitherto only dreamed of. Veilchenblau or Violet Blue is the proper name, but no doubt it will be known in America as the Blue Rambler. This Rose is going to have a larger sale by far than Crimson Rambler. Have we seen it flower? Well, I guess yes, and our word for it if you want something to cause you to stop and take notice, the Blue Rose will fill the bill. At a distance of fifty or a hundred feet a bush of the Blue Rose in full bloom will startle you. When such firms as Ellwanger and Barry, of America, and Alex. Dickson and Sons, of Ireland, give this Rose unstinted praise, it's about time for the plodding nurseryman to stop, look and listen, and not turn up his nose when the Blue Rose is mentioned and work off a sickly smile. A seedling from Crimson Rambler, semi-double flowers larger than that variety, produced in large trusses. This Rose first opens pink, but quickly changes to violet-blue; some describe it as a steel-blue. Very distinct and extremely pleasing. A wonder. Going to sell? Yes, everybody will want and will demand the Blue Rose. 75 cents per dozen; \$6.00 per hundred; \$50.00 per thousand. We are now booking orders for next spring's delivery of Blue Rose.

WHITE DOROTHY PERKINS—It has been the cry of nurserymen for years for a white climber that would rank up with Crimson Rambler, and now we have the pleasure of offering this White Dorothy Perkins that in every way is the equal, if not superior, to Crimson Rambler as a red, and Dorothy Perkins as a pink. This Rose has no rival as a white climber. 75 cents per dozen; \$6.00 per hundred; \$50.00 per thousand.

Tausendschon or Thousand Beauties.

Moss Roses

Two-and-one-half-inch pots, 60 cents per dozen; \$4.50 per hundred; four-inch pots, \$1.50 per dozen; \$12.00 per hundred.

HENRI MARTIN—Light red; very vigorous.

MOUSSELINE—Pure white; extra.

PRINCESSE ADELAIDE—Deep blush; one of the best.

Tree Roses

The Tree Roses are grafted on hardy Rose stalks, about four feet high; are tree-shaped, and when in full bloom are objects of beauty, making handsome plants for a lawn or Rose border. We have them in twenty-five of the choicest varieties in the different shades of pink, red, crimson and white. Fine, strong trees that will bloom nicely the first year, 75 cents each; \$7.50 per dozen.

Summer Bedding Roses For Cut Flowers

The planting of Roses in the garden for summer cut flowers has become in recent years a large business. We sell as many as ten thousand or more plants to one concern for this purpose. The best proof that it is profitable is the fact that the firms who first made the trial are increasing their plantings, while many others are going into it.

The best results are obtained by planting G. & R. own root two-and-one-quarter-inch pot plants. Time of planting should be governed by the locality (in our vicinity May 1st to 10th). Should the spring be early the planting may be done April 15th. Early planting, while the weather is cool, assures an active root action, and the plants are thus ready to work when the hot weather comes on. Cultivation should be intensive, that is, gone over thoroughly at least once a week for say six weeks. Then apply a mulch of coarse barnyard manure that will completely cover the ground. This mulch will provide the necessary moisture and also do away with the cultivation until the fall season, when the cultivator may be started, but very shallow. Never allow the flowers to open on the plants, but cut in the bud state, the stems placed in water and taken inside, and my! what Roses you will see! Nothing grown under glass to compare with them. Only certain varieties of Roses are suitable—those that are good growers, producing fine buds and flowers on good stems.

Important—The list we name, so far as we know, will do well in all parts of the country. The florist in Ohio or Wisconsin should have glorious Roses to cut all summer. You can experiment with a few hundred plants. There may be other varieties that in certain localities will fill the bill as a profitable summer cut flower. We will consider it a favor if our customers will write us saying what are the best for this purpose in their different localities. For summer cut flowers plant the six Roses on next page in your garden.

Summer Bedding Roses For Cut Flowers—Concluded

PINK MAMAN COCHET (Tea)—A magnificent pink Rose, known as Pink Cochet, and the grandest of outdoor bedders in pink, making an enormous growth in one season of the largest size, and one of the most vigorous and beautiful growers in the Tea family. Color very bright pink, with shadings of yellow at the base. Buds and flowers both fine. Price, 50 cents per dozen; \$3.00 per hundred.

WM. R. SMITH (Tea)—This Rose has been rechristened as Maiden's Blush, and also as Jeannette Heller. As a summer bedder this variety ranks up with the two Cochets and Helen Good, producing immense quantities of fine flowers of creamy-white with pink shadings. This is a most wonderful Rose and will please all who plant it. Price, 50 cents per dozen; \$3.50 per hundred.

RHEA REID (H. T.)—Up until this Rose made its advent there has been no red Rose that filled the bill as to a summer bedder that produced fine red Roses suitable for cut flower purposes. It grows and blooms freely, and the color is the very richest. This Rose will unquestionably make its greatest mark as a summer bedder. Price, 60 cents per dozen; \$4.00 per hundred.

HELEN GOULD (H. T.)—Until the coming of Rhea Reid, this was the only red summer cut flower variety. It in no way conflicts with Rhea Reid, as the color is entirely different. Rhea is a much darker red, while Helen Gould is a brighter red. Price, 50 cents per dozen; \$3.00 per hundred.

HELEN GOOD (Tea) (The New Cochet)—This Rose outranks Maman Cochet as a summer Rose, although it in no way conflicts with it in color. Of enormous size both in bud and flower. The color is a delicate yellow, suffused with pink, each petal edged deeper. Very chaste and beautiful. It is a true Cochet type of Rose, both in growth and flower, and by many claimed to be the best of all Roses. Price, 50 cents per dozen; \$3.50 per hundred.

WHITE MAMAN COCHET (Tea)—This American sport of the grand French variety has proved the best of white bedders. Wherever outdoor Roses are grown, White Maman Cochet is a favorite. It is even larger than Maman Cochet, the pink variety described above. The color, a pure white, will sometimes come tinged pink, but always beautiful. Buds and flowers large and beautiful. Price, 50 cents per dozen; \$3.00 per hundred.

HERBACEOUS PEONIES

The King of Flowers--Hardy Everywhere

The demand for fine Peonies is growing with each year, and every florist should have at least a small plantation of them from which to supply his trade, both for the plants and for cutting the bloom. One can make no more profitable investment. The bloom if cut in the bud state lasts for a week or more. We offer as choice a list of Peonies as you will find in this country. To the collector, the varieties named will be attractive. To those who wish to increase their stock of desirable sorts, this list will appeal, and to the nurserymen and dealers who buy to sell, there will be found a list of choice varieties at moderate cost. We started some years ago to grow Peonies, and we believe that no firm in this country has such a large planting of valuable sorts as we. Our endeavor is always to lead and not follow in any branch of the floral business we undertake. We will make Good & Reese Peonies as much of a household word as are G. & R. Roses, so do not forget us when in need of Peonies. We can supply them (referring to the price) from the aristocrat to the plebeian. We guarantee our Peonies true to name. The plants we offer are divisions, with two to five or more eyes. We always give value. We supply six at dozen, twenty-five at hundred, and 250 at thousand rates. For any varieties not listed write us for prices.

Peony Mont Blanc.

TREE PEONIES

This is a remarkable species, developed from Peony Mouton, a native of China and Japan. In habit of growth it is not unlike a deciduous shrub—the growths are short and stocky, the plant eventually attaining a height of four or more feet and of large circumference; the foliage is quite handsome, and the immense flowers, which usually appear some two weeks ahead of the herbaceous class, are most remarkable for their immense size and gorgeous colorings. Splendid for grouping or for specimen plants on lawns. While a hardy plant, it will be found desirable to give it some protection in very cold latitudes. All shoots springing from the base should be rubbed off; any color you desire. 65 cents each; \$6.00 per dozen.

REMEMBER

That so long as we can ship Peonies safely during the spring months we will do so; after it becomes too late we will file your order for them and ship in the fall time.

At Easter they are seen in every church and in the windows of our finest residences. The ease with which they can be grown, their diversity of color and freedom of flowering will always keep them in public favor. The plants we offer are all set with buds and are beautifully trained specimens, and will flower in the springtime in any ordinary living room. In summer set out of doors in the shade and keep moderately wet. Our list embraces the standard sorts for florists. Price, 65 cents each; \$6.00 per dozen.

ARAUCARIA EXCELSA

Norfolk Island Pine—Various names have been suggested for this grand plant to properly convey to the mind the appearance of it. Some have called it the "Christmas Tree Palm," from its resemblance to a Christmas tree; other have called it the "Star Palm," because the leaves are arranged to form a perfect star. But no descriptive name can give an adequate idea of its beauty. It has deep green, feathery foliage, arranged in whorls, rising one above the other at regular distances. Its symmetry of form, grace and beauty of foliage are unequaled in the vegetable kingdom. It is easily grown in the house, and is highly ornamental. It requires the same culture as the Palm. Culture nearly related to that of the Azalea, but their success is more certain. Requires shade and moisture throughout the hot season. Time of blooming is in winter and in early spring. BEAUTIFUL FERNS

Ferns have become indispensable to all florists who are up with the times. They are money-makers for all who handle them. Our stock is fine and will please you.

The Grandest Fern of the Age,
NEPHROLEPIS "ROOSEVELT"

It is our good fortune and great pleasure to offer this wonderful new Fern. In general characteristics it resembles the world famous Boston Fern, but it will sweep that Fern from the boards for two reasons; it produces many more fronds than the Boston, thus making a bushier, handsomer plant. In fact, it is the best Fern for florists' use ever introduced.

The usual size to sell the Boston Fern is from a six-inch pot. Well, let us tell you that in a six-inch pot of the Roosevelt and the Boston there is no comparison. The Roosevelt almost doubles the fronds of a Boston in a six-inch pot, thus making a much more finished plant, and, therefore, more salable. The pinnae are beautifully undulated, giving the Roosevelt a pronounced wavy effect seen in no other Fern; as the plant ages this effect becomes quite distinct. Everybody will want this grand Fern. The Roosevelt Fern will be distributed June 1st, 1911. We will book orders and fill in strict rotation as to the date we receive same. Each, 40 cents; two-and-one-fourth-inch pots, \$3.50 per dozen; \$25.00 per hundred; \$200.00 per thousand. Twenty-five plants at hundred rate, 250 plants at thousand rate. See front page of cover for photograph of six-inch pot plant of the Roosevelt Fern.

The Tarrytown Fern.

In this beautiful new Sword Fern we have a rival of the Ostrich Plume Fern. The fronds are the same size, only not so feathery. Beautiful. This is the only plant that was ever awarded a gold medal by the Society of American Florists. 50 cents per dozen; \$3.50 per hundred. Four-inch pots, \$2.50 per dozen; \$18.00 per hundred.

NEPHROLEPIS SUPERBISSIMA

Fluffy Ruffles Fern.

This is a new Fern, the fronds of which are so irregular in growth that some one suggested the above name. This is the oddest of all the Nephrolepis, and a strong plant is a beautiful object and always attracts immediate attention. Very unique. The fluffy ruffles Fern has come to stay. Two-and-one-fourth-inch pots, \$1.00 per dozen; \$6.00 per hundred. Three-inch pots, \$1.50 per dozen; \$10.00 per hundred.

NEPHROLEPIS WHITMANII

The Ostrich Plume Fern.

In this we have unquestionably the most valuable Nephrolepis of the Ostrich Plume type yet introduced; not only is it of dwarfer habit than the N. Elegantissima, but the pinnae, being more deeply divided, give the plant a much more graceful appearance, while another important point in its favor is the fact that not a single frond has ever reverted to the common Boston Fern. Strong, two-and-one-quarter-inch pots, 50 cents per dozen; \$3.50 per hundred. Four-inch pots, \$2.50 per dozen; \$18.00 per hundred.

Fronds of Nephrolepis Roosevelt.

The Wonderful New Fern, Nephrolepis Goodii, BABY'S BREATH

This new Fern was raised by us, and it has the finest foliage of all the Ferns. It is so delicate that a lady on seeing it exclaimed, "Call it the Baby's Breath Fern, as it is so dainty in texture that a baby's breath would set its fluffy foliage in motion." It gives the impression of fine lace work, known in the East as the Philadelphia Lace Fern. It is a much finer Fern than Nephrolepis Amerpohlil. Whatever name you call it by, it is a beauty. Our reputation for it that no Fern in existence can compare with it in fluffiness. Two-and-one-fourth-inch pots, \$1.00 per dozen; \$7.00 per hundred. Three-inch pots, \$3.00 per dozen; \$20.00 per hundred.

The greatest bedding plant ever introduced, surpassing the finest Cannas for attractiveness and brilliancy, equal to the Gladiolus as a cut flower, and blooms incessantly from June until November. Plants perfectly hardy in open ground all winter south of Philadelphia. Further north they must be protected or wintered in the cellar like the ordinary Tritoma. BURBANK'S SHASTA DAISIES

Shasta Daisies (New)—The Shasta Daisy is one of the most marvelous productions in the flower line that has ever been brought to the notice of floriculturists. It is the first of a new type which has been obtained by hybridization and rigid selection through a series of years. Its first qualification is extreme hardiness. Second, it is perennial, blooming better and more abundantly each season. Third, it is not particular as to soil. Fourth, it blooms for several months. Fifth, the flowers are extremely large and graceful, averaging about four inches in diameter, with petals of the purest glistening whiteness, which are borne on single, long, stiff, wiry stems. Sixth, the blooms when cut remain perfectly fresh and in good condition for two weeks or more. No other flower can compare with it in usefulness. 50 cents per dozen; \$3.50 per hundred.

HARDY PERENNIAL PHLOX

THIS is one of the most easily grown hardy perennials, and the large number of beautiful varieties now offered makes it especially desirable. These noble flowers are not only beautiful as individuals, but the cheerful appearance of our gardens during the summer and autumn months is much indebted to them. They succeed in any position or soil, and can be used to advantage either as single specimens in the mixed border or as large clumps or beds on the lawn. To produce the best results, however, they should have a rich, deep and rather moist soil, and let each clump have a space of from two to three feet in which to develop. They will continue to thrive for several years with little attention, as is attested by the fine clumps about old homesteads. The ease with which they are cultivated, their combined with the varied and beautiful coloring, make perennial Phlox usually commence to bloom in early summer, and are brilliant with color until after several frosts have come. They are admirably adapted for cemetery planting, also for a low hedge or screen to hide old fences and unsightly objects. Plant Phlox; they take care of each year upwards of five hundred thousand Phlox. The plants we offer are one-year field-grown, and will produce an abundance of flowers the first year. 50 cents per dozen; \$3.00 per hundred; \$27.50 per thousand.

NEW FORCING HYDRANGEA

Arborescens Grandiflora Alba, "Hills of Snow"

The Great New Forcing Hydrangea *Arborescens Grandiflora Alba*, or "Hills of Snow."

Here we offer the finest plant to force in pots that has ever been sent out. We forced some the past spring as a trial. We wanted them for Decoration Day. They were all in bloom, every stem having an enormous flower, many of the trusses or flower heads being over a foot across, of the purest paper white. Our word for it, no plant of any kind will make you the money this plant will. It is simply a wonder. We have a fine stock to offer suitable for forcing the coming spring. Remember, there are two distinct kinds of this Hydrangea. One will not produce a single flower when forced. The kind we offer is the true forcing variety, guaranteed. It is also the grandest hardy shrub for the garden ever sent out, growing into a perfect symmetrical bush without pruning, coming into bloom in June and lasting up till August, when the *Paniculata Grandiflora* begins to flower. This is the shrub par excellence. We have fifty thousand field-grown plants to offer.

HYDRANGEA PANICULATA GRANDIFLORA

A great favorite, and there is nothing finer or more showy, whether for planting in large masses in parks or for single plants on the smallest lawns. Blooms profusely from July until frost, in immense white panicles, tinted with pink and then with brown in the fully matured flower. The plant should be cut back each spring fully one-half of the past season's growth, as the flowers are much finer if the plant is treated in this manner. The flowers are much finer and larger if grown in a good, rich soil, but the plant is so hardy and easily grown that success is almost certain in any kind of soil and in any situation. Comes into bloom right after *Hydrangea Arborescens* Grand is through flowering. One-year, twelve to fifteen inches, 75 cents per dozen. Two-year, twenty-four to thirty inches, \$1.50 per dozen; \$12.00 per hundred.
